

MECHANIC 120 LEATHER PALM LINED GLOVE

DESCRIPTION

This general handling glove is engineered for use in cold environments, combining durability, comfort and thermal protection. The palm is made from goat leather, offering excellent abrasion resistance, strength, and grip without compromising tactile sensitivity. The back of the hand is constructed from a lightweight polyester knit, providing breathability and stretch to enhance dexterity. For enhanced cold-weather performance, the glove features a thermal inner lining that retains warmth while maintaining flexibility. Together, these materials deliver a glove that is robust, durable, and comfortable for extended wear — ideal for general handling, assembly, and maintenance tasks in low temperature environments.

FEATURES

- Goat leathers grain structure provides good abrasion, comfort and dexterity
- Specially designed for use in cold conditions
- High performance multi-purpose glove
- Provides contact heat protection up to 250°C for 15 seconds
- Provides insulation and thermal protection
- Ergonomically designed for comfort and ease of use
- CE certified
- Retail tag which aids presentation for retail sales
